E. WOODWORTH, July 20th, 1882. Brandon.

THE PRESS ASSOCIATION'S VISIT.

BRANDON

was reached about seven o'clock the next morning, (Wednesday). The Brandon band (an excellent musical organization, but a few month's old) and the mayor and council of the city were at the station to greet the party, and the excursionists were escorted to carriages and driven to various hotels in the city, where they were provided with breakfast. Breaktast over an address was presented to the Press Association in the city hall, and speeches were made. Then a drive was taken about the city, and across the Assiniboine River, over a fine Howe truss bridge erected by Mr. J. E. Woodworth at his own expense, and just opened that morning, the Press Association being the first to cross over the structure. Mr. Woodworth is one of the first settlers of Brandon, and owner of a valuable portion of the townsite. He has made his 'pile' out of it, but unlike many he is giving the fire engine (just purchased), and altogether the corporation is expending the sum of $100,000 in local improvements this season. Brandon is booming and no mistake. We were informed that 150 houses are under contract to be erected this season, and in addition to this there are several expensive buildings in course of erection, among them a $15,000 club house, and a handsome English church. The citizens have great confidence in the future of this young Chicago of the North West, and well they may. It is the supply point for such fine sections as Minnedosa and Rapid City on the north and Souris City, Plum Creek and Turtle Mountain on the South, and as the Canada Pacific Railroad Company does not intend to build any branches for several years Brandon will be the wheat market and trading point for these sections for some years to come.

After the drive about the city, the excursionists were given a fine lunch in the Dominion Government Immigration House, at the conclusion of which toasts were proposed by Mayor Daly and responded to by members of the Press Association.—*International.*

Brandon is picturesquely situated on the rising slope of a fine valley, fronting Westminster-looking heights opposite, "while Jordan rolls between"—strictly speaking the Assiniboine. At this place Mr. Alex. Calder, ex-Londoner, now a well-to-do resident of Winnipeg, owns a fine new hotel, about completed. Brandon became a city in June, 1882. It now claims 3,000 people, and well deserves the name of the magic city. Stores, dwellings, implement depots, tents, street-ploughs at work—every indication of a pushing centre of population. Brandon lies high and dry, and will never be flooded, whatever else happens. J. W. Sifton, M. P. P., of the Manitoba Legislature, ex-Londoner, resides here. Mr. T. M. Daly, jr., the Mayor, is a Stratford boy. Young men fill most of the municipal and parliamentary positions of the North West.—*London Advertiser.*

Brandon is one of the most rising cities of the North-West. It first mayor is a young Canadian, Mr. T. M. Daly, jr., formerly of Stratford, and an excellent Chief Magistrate he makes. One year ago there was not one single house at Brandon, now it is a full-fledged city, numbering its inhabitants among the thousands. The city is beautifully situated, and is a very pretty spot. The corporation have over 500 men engaged in grading the streets, and what but a few months ago was a lonely prairie, is now a busy city, with its banks, post office, churches, school houses, mills, &c. At Brandon, the Association were billeted at the different hotels for breakfast, and in the afternoon entertained at a most handsome banquet in the Government buildings, over which Mayor Daly presided, and at which suitable speeches were made. Previous to the banquet our party were driven over the prairies and around the city, your correspondent visiting the celebrated Whitehead farm, where he saw 460 acres of oats in one solid block.—*Guelph Mercury.*

START FOR THE CITY OF BRANDON.

This place was reached in time for breakfast. The band and several hundred citizens met the party at the station. An address was presented to the Association in the Council Chamber by the Mayor, and then a drive was had around the city and neighboring country. Brandon is most beautifully situated on a rising ground on the Assiniboine river. Nature has done everything to make the site favorable for a city. The population is now about 3,000. $120,000 are being expended in grading the streets this summer. In all directians are the evidences of push and energy. The country in the immediate vicinity looked most inviting, and the crops all that could be desired. A banquet was given in the Government buildings, followed by the usual toasts, Mr. Trayes, of the *Times*, returning thanks on behalf of the Association for the attention given to the visitors.

General Conclusions.

No one can visit the North-west, at this time of year, without being impressed with the wonderful resources, its limitless fertility and its inestimable wealth. Nature has done everything to make it a grand addition to the Dominion. The North-west has been under-estimated and over-estimated in many respects — under-estimated by those who have considered it valueless—over-estimated by those who have imagined that a competence could be secured without hard work. It is a country of grand probabilities, and grander possibilities. At present it is heavily handicapped. There is not an acre of homestead to be had in Manitoba, and yet a tenth of the land is not under cultivation. There is not an acre of Government land to be got on the line of the railway east of Bow river, and yet a fiftieth is not in a state of cultivation. The best lands of the North-west are not come-at-able for settlers, being held by colonization companies and speculators, Those who want to buy land there should go out and see for themselves. Land can be bought, any amount of it, and, where it is good, it is well worth the money, although it did not cost the present holders but a trifle. The North-west has a grand future. That future may be delayed, but it cannot be prevented altogether. The country is worth a visit, particularly to intending settlers. It will not only derive a large portion of its population from the older provinces, but will prove a heavy drain on the Dominion treasury. The annual subsidy to the provinces that is, and to the provinces that will be, must be largely increased. For that reason, if for no other, it behoves everyone taking an interest in public matters, to secure all the information obtainable of that wonderful country.—*Port Hope News.*

EGYPTIAN WAR.

A CRUSHING DEFEAT.—ARABI HISSED AND REVILED BY HIS OWN MEN.—GEN. WOLSELEY'S DESCRIPTION OF THE BATTLE.

Alexandria, Sept. 14.—Yesterday's crushing defeat of the Egyptian army is confirmed in every way to-day. Wolseley captured 3,000 prisoners and forty guns, besides killing 6,000 Egyptians. Two hundred of the British are killed. The actual time of the engagement was fifteen minutes. Arabi was hissed and reviled by his own men who are prisoners, and denounced as a coward. Many of the British officers were shot by sharpshooters.

ACCOUNT OF AN EYE-WITNESS.

An eye-witness says:—"Before the advance Wolseley impressed on the men perfect silence on the march out, and not to fire a shot until compelled to do so. During the whole night his instructions were followed. As the long column wended its way, the almost oppressive silence was broken only by the occasional jingle of a scabbard or champing of a bit. The deep sand of the desert muffled the sound of the footsteps, and the Egyptian darkness, faintly streaked by the approach of dawn, added a wierd and mysterious aspect to the march. Hardly had the forces got in order a mile from the entrenchments, when, catching sight of us, the enemy opened fire. They fired very wildly, as the men had just been aroused from sleep and were so dazed as to be unable to realize their position. The fire was very heavy, but was ill-directed, and went over our heads. Their guns were worked from pits and fired round shot and shell without any lull. Our fellows never moved, but stood to their guns, awaiting the word to advance. Now and then a man would fall, but the rank closed up immediately and presented a front as solid as before. When the word was given to advance, the Highlanders, with loud cheers, rushed on the enemy as regularly as if on parade. Not a man wavered, not a line was broken, covered by the fire of our artillery. They passed on to the front with claymores ready, for as they deployed and opened out from their shelter behind the sandhills they came in sight of the enemy, who began a heavy rifle fire. As the line of kilted warriors reached the sandhills, they, with Graham's brigade, paused for a moment to dress. Here the effect of the fire from the enemy's rifles, as they popped at our men in the dark, was very noticeable, much more so than the effect of the shooting, as the lurid light illuminated all the surroundings and showed a phalanx of fighting men whose towering stature and waving tartans were magnified tenfold in the uncertain glare. At once, with a mighty rush and a mightier cheer, the whole of our line charged forward and in a moment were in the midst of the Egyptian troops and engaged in a hand to hand struggle. The slaughter was terrible, and was greatly added to when the rifle fire began to play pretty freely on the desperate foe. Then the rebel bands broke and fled, leaving their rifles and artillery in the abandoned pits, while they took refuge behind the second line of entrenchments. Day was now breaking and the enemy's fire improved, but still our men, with unfaltering steps, never swerving under the leaden shower, kept on a steady advance. Many fell, but in their fall called on their comrades to advance. After a sharp, fierce struggle, the second line was captured as well, and the enemy was in hot retreat."

CAPTURE OF ZAGAZIG.

Macpherson made a forced march after the capture of Tel El Kebir to Zagazig, which surrendered.

ANOTHER VERSION.

Alexandria, Sept. 14.—The enemy was taken completely by surprise yesterday morning, owing to the quietness and rapidity of our advance. The attack was led by the Highlanders, who carried the first line of entrenchments at the point of the bayonet, and without firing a shot. An attack was then made on the second line of entrenchments, which had been greatly strengthened, and here some bloody work was done. The enemy was completely routed and fled towards Zagazig hotly pursued by the Indian cavalry. Gen. Wolseley closely watched the fight, and exposed himself to considerable danger. The Duke of Connaught exhibited a great deal of coolness. Arabi made his escape on horseback. Two trainloads of fugitives escaped as soon as our troops reached their entrenchments, while the engine of another train was blown up by one of our shells.

Gen. Willis is very slightly, and Col. Richardson severely wounded. Majors Colville, Underwood and Somerville, of the Highland Light Infantry, were killed. Of the Black Watch, Lieut. McNiel was killed; Captains Cumberland and Fox were wounded. Gen. Allison's aide-de-camp, Capt. Hutton, was wounded. Col. Sterling and the surgeon of the Coldstream Guards were wounded. Col. Belfour, Grenadier Guards, was wounded in the leg, and the color-sergeant killed. The cavalry is now on its march to Belbeis, and the Indian Contingent on its way to Zagzig, to be followed this evening by the Highland Brigade. Three lieutenants of the Cameron Highlanders were wounded. The Canal is cut in some places, but the railway is intact. It has been discovered that Rabhel Pasha and Ali Fehmy Pasha were wounded in the engagement last Saturday.

DEMONSTRATION IN ALEXANDRIA.

There was a grand demonstration in Alexandria last night over the news of the victory. Processions paraded the streets, while the Khedive's band marched to the different tribunals, before which they played the English and Egyptian anthems.

THE NEWS IN ENGLAND.

London, Sept. 16.—There were great rejoicing throughout England yesterday when the dispatches from Egypt were received conveying the gratifying intelligence of Welseley's complete success. It is believed that Arabi's power is now completely broken.

THE LATEST.

KAFR EL DWAR SURRENDERS TO THE BRITISH. REPORTED CAPTURE OF ARABI.

Alexandria, Sept. 14.—Arabi's officer in command at Kafr El Dwar has written to Gen. Wood expressing a wish to submit to the Khedive, and states that the army has stopped all hostilities. The British troops here have been ordered to hold themselves in readiness to take possession of Kafr El Dwar. Negotiations are now proceeding satisfactorily. The general opinion here is that the natives will deliver up Arabi to the British. Wolseley hopes that the cavalry will occupy Belbays to-day, and the infantry arrive there to-morrow. He expects to take possession of Benka to-day, and if all is well will advance to Cairo with the Guards.

REPORTED CAPTURE OF ARABI.

The latest report says that Arabi has been captured near Benka.

THE MILITARY CONVENTION.

The British Foreign Secretary has instructed Lord Dufferin to sign the military convention.

THE BRITISH LOSS.

Tel El Kebir, Sept. 14.—The British loss is 100, including 30 killed. Eight officers are among the dead. Gen. Lowe is at Balbays with the cavalry brigade. The Highlanders marched towards Zagazig and are now in possession of the railway to Cairo. All Arabi's papers were seized. Hundreds of fugitives including many officers were surrendered. Wolseley has gone to Zagazig.

GEN. WOLSELEY'S ACCOUNT.

The following is Gen. Wolseley's report of the battle:

"We struck camp at Kassassin late last evening, and bivouacked on a high ridge above the camp till 1:30 this morning. We then advanced upon the very extensive and very strongly fortified position held by Arabia Pasha with 20,000 regulars, of whom 2,500 were cavalry, with 70 guns and 6,000 Bedouins and irregulars. My force was about 11,000 bayonents, 2,000 sabres and 60 guns. To have attacked so strong a position by daylight with the troops I could place in the field would have entailed very great loss. I resolved, therefore, to attack before daybreak marching the six miles that intervened between my camp and the enemy's position in darkness. The cavalry and two batteries of horse artillery on the right had orders to sweep around the enemy's line at daybreak. The first division consisted of the Second Brigade under General Graham, supported by the Foot Guards under the Duke of Connaught, and seven batteries of artillery, numbering 42 guns, with supporting brigade. The 2nd division consisted of the Highland brigade leading, and the Indian contingent. These were on the south side of the canal, with the naval brigade on the railroad. Great emulation was evinced by the regiments to be first in the enemy's works. All went at them straight.

The Royal Irish particularly distinguished itself by its dash and the manner in which it closed with the enemy. All the enemy's works and camps are now in our possession. I do not yet know exactly the number of guns captured, but it is considerable. Several trains with immense quantities of supplies were captured. The enemy ran away in thousands, throwing away their arms when overtaken by our cavalry. The loss is very great.

The *Times*, in an article on the attack on Tel-El-Kebir, says:—It is impossible to conceive of operations more successful and executed in a more masterly manner. The whole plan of the campaign was settled by General Wolseley, with the concurrence and hearty acquiesence of his superiors and chief advisers before he left England. There never was any question about the canal being a basis of operations. Before he left England he put his fingers upon Tel-El-Kebir, saying, that there Arabi Pasha would stand, and there we should attack him, on September 15th. We mention the circumstance to show that a great deal which to an outside observer seems chance is really foreseen, planned and allowed for. General Wolseley has achieved a success which renders all apology for his methods superfluous.

THE BRANDON SUN.

BRANDON, MANITOBA, SEPT. 2, 1882

WHAT'S IN A NAME.

A few of the Reform papers, both of Ontario and Manitoba, led by the *Free Press*, have been ridiculing the name of the capital of the new Western Province. They must be very hard up for something to find fault with. Nothing done by the Syndicate or the Government seems to please these papers, which are at present enjoying the cold shades of Opposition. In the opinion of THE SUN a more appropriate or better sounding name could not have been chosen for the capital of a Province. Regina is the Latin equivalent for Queen, and the idea of a capital being regarded as the Queen city of the Province is very good. Looking at it in this light the name Regina is a peculiarly happy one, and, though the people of Manitoba may be Democratic in their ideas, why should any of them be so ungracious as to refuse a small honor to a lady whom anyone should be proud to acknowledge as his Queen. Many of the older cities of the East would be only too glad to be considered a Queen city. We hope to see a more charitable spirit shown in future by the Reform press.

SOME of the deputy returning officers are complaining that they have not yet received any pay for their labors during the late Dominion election. It is to be hoped that whoever has this matter in hand will have it attended to.

WE HEAR it rumored around that there are to be started here at once three Grit and two Tory newspapers. They purpose leaving the affairs of the city and the best interests of the Province in the hands of THE SUN, while they fight as to which particular party shall have office. In this part of the Province, at least, the people have up to the present been free from the bitter and annoying party wrangles which in the older provinces have made so many enemies, where otherwise they would have been friends. The man who lives on politics is a nuisance in any community.

WE LEARN that the Hon. John Norquay has received ovations in some of the towns in Southern Manitoba. There are, no doubt, those in the Ministerialist party from whom could be chosen a better Premier than Mr. Norquay, but even he is to be preferred before Mr. Greenway, the leader of the Opposition. Those who know anything of the latter's political record in Ontario would be the last to place the destiny of a Province in his hands. The electors of Manitoba should sever all party affiliations formed in the older Provinces, and vote only for men of personal worth and ability. Party has been well described as "the madness of the many for the gain of a few," and these few in Manitoba, it is needless to say, are those who are striving to divide the people into two opposite factions, to be called Conservative and Liberal. As far as we can learn, the platform to which each party will pledge itself at the forthcoming election will be decidedly alike, and it thus further behooves every elector to study it, and if he approves of it, vote for the best man offering.

PERSONAL CHAT.

Rev. Mr. Bridgman, arrived here on Thursday last, to assist Rev. Messrs. Lawson and Williams (Methodist) in their work in this place. He preached on Sunday evening.

Mayor Daly and others of the city, and Mr. T. M. White, of Windsor, Ont., started for the end of the track on Friday last. Several of our citizens started for Regina on Tuesday last, on a prospective tour. Like all who have gone there, we feel sure they will return singing "There is no place like home."

Mr. T. Mayne Daly, Sr., father of our esteemed Mayor, started for his home in Startford, Ont., having spent most of the summer in the North-west. He leaves with difficulty, having formed grand ideas of the future importance of the country. Although, he has repeatedly told us that he has not made two millions, he has done as well as the majority of those who have invested in Manitoba did.

Mr. Jarvis, formerly of Stratford, Ont., has just returned from a visit to that burg, and informs us of his pleasure at returning to the land of promise.

The Ontario exchanges which arrive daily are replete with accounts of the recent trip of the Press excursionists to this country. W. R. Baker, assistant manager, General Superintendent Egan and assistant traffic manager Harder of the Canada Pacific Railway, are all complimented for the courtesies extended on behalf of the Canada Pacific Railway authorities.

A. Freeland, Esq., and lady arrived at their new home here during the past week. THE SUN extends to them a hearty welcome.

Murder in Turtle Mountain.

On Saturday the 9th inst., two men Joseph Levecque and J. Leggo Doleryea, were driving some cattle, Doleryea being some little distance ahead, his companions not being very strong, he sat down on a log to rest himself. Levecque, on coming up to him, for some cause unknown, kicked him in the head, the blow killing him almost instantly. When struck the victim rose; and, staggering a few feet, fell a corpse. The murderer at once took to his heels, and sought refuge in Dakota. Constable Laravierre, in a warrant from J. P. Smith, Esq., started in pursuit; and after two or three days' journeying, caught up to the refugee, and had him arrested. He was brought back, examined, and committed for trial. He passed through here for Winnipeg on Saturday last. The murder took place near Wakopa.

CRICKET.

BRANDON VS. PLUM CREEK WANDERERS.

This match was played in Brandon on Saturday the 16th inst., and resulted in another victory for our boys, being decided by the first innings. The day being fine a goodly number of ladies graced the field with their presence, and to this we may attribute in a great measure the success of the match. The most noticeable features of the match were the wicket keeping of Mr. Lester Smith, the batting of Mr, Lawe, and the bowling of Mr. Holmes, of Plum Creek, whilst for Brandon Messrs. Forrester and Duncan batted well. Subjoined is the sco e:

CITY OF BRANDON.

LICENSES!

To Whom it May Concern.

Whereas by By-Law No. 15 of the City of Brandon, intituled, "A By-Law to "Provide for the issuing of Licenses, "and for regulating and governing the "persons and places licensed," it is provided:—

That every applicant for a license for a Billiard Table, Bagatelle, Mississippi, or Pigeon Hole Table, Bowling Saloon, Shooting Gallery, Feed or Sale Stable, or Truck or Water Cart or other Vehicle used for conveying water from house to house, or as an auctioneer in the City of Brandon, shall pay the Chamberlain of the said City, for the uses of the municipality, the fee for such license set forth in the schedule as follows:

Billiard Tables, for the first table	$25 00
For each additional table	10 00
Bagatelle, Mississipi or Pigeon Hole Tables, or such like, each	20 00
Feed and Sale stables, each	25 00
Auctioneers, each salesman or crier	20 00
Bowling Alleys or Saloons, each	20 00
Shooting Galleries, each butt	10 00
Trucks, drawn by one animal	5 00
For each additional animal	3 00
Water Carts or other vehicles used as such	10 00

NOTICE is hereby given that all persons interested are required to govern themselves accordingly, otherwise the penalty for an infraction of said By-law will be strictly enforced.

T. MAYNE DALY, JR.,
Mayor.
City Hall, Sept. 18th, 1882 35-3t

NOTICE.

We beg to remind gentlemen who wish to become members of the BRANDON CLUB, and have not already sent their names in to the secretary, that they should do so on or before the 15th of September, as after that date there will be a ballot and an entrance fee as well as the yearly subscription. The Secretary has issued circulars to a great number, but as there is no directory, at present, of Brandon and its district, it is impossible for him to have sent to all, but it not at necessary for a circular to be sent to entitle them to send their names in.

Suitable Hotel Accommodations.

D. H. PARKER. E. DICKSON.

WOODWORTH ESTATE LOTS.

FULL AND SUFFICIENT DEEDS.

Purchase your Residence and Business Sites in

THE CHOICEST LOCATIONS

AND SECURE YOUR DEEDS AT ONCE.

It is scarcely necessary to enter into a lengthy description of the advantages to be derived by settling in Brandon, as its growth during the past summer has shown that it is decidedly the CITY OF THE WEST. Yet it behooves all who come here and purpose remaining to provide for themselves as soon as possible comfortable houses and good points of business. These can be had from Mr. Woodworth and at first prices. When you can secure such property as he offers you, and at the prices, it is folly to go elsewhere and purchase through outside agents, getting inferior locations and paying much higher figures.

The completion of the First Street Bridge brings right past the door of this property all the traffic to the North and West of the Assiniboine, and therefore adds greatly to its value. Of this purchasers have the benefit.

SOURIS! (Plum Creek.)

Town Lots for Sale!

The proprietors will offer for sale

By Public Auction, at the Crescent Hotel, Souris,

ON SATURDAY, SEPT. 30th,

At 12 o'clock noon, a large number of lots in the above thriving town.

It is situated at the Junction of Plum Creek with the river Souris. The main trail to the Turtle and Moose Mountains, The Antlers, Manchester, Dobbin City and all places South of the river crosses at this point. It is distant from the railway station at Alexander about 13 miles, and from Brandon 25 miles, to which latter place a stage runs twice a week. A Branch of the C. P. R. has also been located to the town en route to the coal fields.

There is at the mouth of Plum Creek a magnificent water-power, upon which a large grist mill is now being erected by Messrs. McCulloch, Sowden & Co., (the former late of Galt, Ont., and more recently proprietor of the mills in Minnedosa.) The capacity of this mill will be 200 barrels of flour per diem, and it is guaranteed to be completed by 1st January next.

The town also contains a Post Office, three hotels and two stopping places, three stores, an insurance office, a land and loan agency, and the large livery and feed stables of Messrs. Kirchhoffer & Jameson. Two firms of builders and contractors, a blacksmith shop, a Methodist church, an Episcopal church, and a number of private dwellings. In addition to which there are a number of buildings under contract to be completed before the winter sets in. Bricks of a most superior quality are being manufactured upon the premises. The Sowden settlement, in the centre of which this town is situated, is well known as one of the most thriving in the whole North-west, the acreage under cultivation being very large and the yield of grain enormous. The class of settlers, too, is superior to that generally met with, being largely composed of men of capital.

TITLE: Patent From the Crown.

TERMS and conditions made known on day of sale.

Souris, September 11th, 1882.

THE NORTH-WEST FUEL COMPANY,

BRANDON,

Have now on the way all the Coal that the consumers in Brandon will need for the coming winter, and are prepared to take orders for the low figure of

and is just receiving a large stock of

FRESH CANNED GOODS, READY-MADE CLOTHING, CROCKERY, GLASSWARE, GROCERIES, CONFECTIONERY and FRUIT.

Highest Cash Price paid for Batter and Eggs. Remember the place opposite east end of Freight Depot, Brandon.

THE BRANDON SUN.

BRANDON, MANITOBA, SEP. 21, 1882.

Frank Myer and Mr. Ross, of Deer Lodge are in the city.

ALD. G. WINTERS was acting magistrate on Monday last in the absence of the mayor.

Ald. Bower returned on Friday last with his family. He reports affairs in the east as brighter than for some time.

OUR young friend, Todd, son of the ticket agent at the depot, has opened out a news stand in the station building.

PRESBYTERIAN.—The First Presbyterian church is now completed, and that body held services therein on Sunday last.

NEW SIGN.—The Braeside block has just been ornamented by the painting of its name "Braeside Block" in large letters on the centre piece overhead.

General Superintendent Egan has issued a circular appointing Mr. John Niblock train master of the Brandon Division, with headquarters in Winnipeg.

ACTED.—We are pleased to notice that the contractors have acted upon the advice of THE SUN and placed lamps at the dangerous places on the streets during the dark nights.

Messrs. Manning & Co., Bankers and Brokers, have decided on withdrawing their branch from this city, and are transferring the whole of their business to the Imperial Bank of Canada here to-day.

THE NORTH-WESTERN FAIR.—This fair, held under the auspices of the Brandon Agricultural Society, will take place on Wednesday, October 11th. Over five hundred dollars will be offered in prizes, and the officers and directors are doing all possible to make it a grand success.

THE EXCURSION TO THE EAST.—On Saturday and Monday last excursionists started from here to take part in the cheap trip to the east. Some purpose remaining for the winter, while the majority will only remain during the limit of their ticket.

The Rev. G. C. Squire and lady have received number of tokens of appreciation from the many friends they have made during their stay in our city. Last evening Mr. Manore, on behalf of many others, read a very flattering address and accompanied the same with a roll of the "needful."

It was a rather remarkable coincidence that the 89th Psalm, appointed by the English Church Prayer Book for last Sunday evening's service, contains the following passage: "Thou hast subdued Egypt and destroyed it; Thou hast scattered thine enemies abroad with Thy mighty arm."

ST. MATTHEW'S CHURCH CONCERT.—The committee on entertainments in connection with the organ fund of St. Matthew's Church desires to return thanks to the ladies and gentlemen who kindly assisted or otherwise aided in making the musical performance of Thursday evening last a success. The total sum realized from concert and refeshments amounted to $285, less the amounted of the expenses, which were $35.00.

COAL.—By reference to the advertisement of the North-West Fuel Co., in another column, it will be seen that they purpose going largely into the business here this winter. Mr. Hesson, the manager, has gone east to attend to the shipment of the first lot. They purpose keeping a large supply on hand, and for that purpose they are now erecting a large shed.

SKATING RINK.—To those of the young people who are beginning to enquire about a skating rink it will be pleasing to learn that Messrs. Phippen and Winter are arranging to erect a large rink, size 50 x 150 feet, at the corner of Princess avenue and 8th street. A first-class rink, well conducted, cannot fail to be a success in every sense during the coming season, should the climate not prove too mild.

A SECOND SIR GARNET.—Some two weeks before the decisive Egyptian battle, a gallant captain of the navy in our midst, at the inaugural meeting of of the Brandon Club says he placed his finger on a certain spot on a map and informed those present that the decisive battle would take place there. It has so proven, und the captain's reputation is safe.

GENEROUS.—One day last week, Mrs. J. H. Brownlee and Mrs. Will. J. White circulated a petition asking assistance towards a very deserving family in No. 3 Ward, and in a few hours had the satisfaction of receiving $192, with proffers of more assistance when required. They desire to thank the donors for their most willing liberality in this case. With the funds it is proposed to purchase a lot and settle the family comfortable for the winter.

THE CONCERT.—The concert under the auspices of the English Church, held in the school-house on Thursday evening last was an undoubted success. The musical part of the programme was carried out to the satisfaction of all; the performers being Mrs. Clementi-Smith, Mrs. Gurney, and Misses Wright and Whitehead, assisted by Mr. Lawrence Buchan. The event of the evening was the sale of the cakes, fruit, &c. which was eagerly purchased by the liberal crowd. Mayor Daly swung the hammer with great effect. Over $200 was cleared by the entertainment, which is placed to the credit of the organ fund.

THE 18TH STREET BRIDGE.—Property-holders in the west end of the city are anxiously watching the progress of the work on the 18th street bridge, as they look upon that as one of the "boomers" to their real estate, it being the way by which the people to the north and west will find their way to market. Messrs. Grant have about completed the swing, and in a few days it will be turned into place, the abutments and approaches being quite ready. The grading, which is being performed very satisfactorily, is almost done. When this bridge is open, Brandon will have two excellent means of communication with it's friends to the north. Several hundred people visited the bridge on Sunday. The First street bridge, which has been completed for some time, was well patronized on Sunday last by foot passengers and carriages.

You retire at your usual hour; and, if not an immoderately early riser, you find the grand view of the day before obscured by the frame of a new building. This is the experience of many.

To say that there is a building "boom" at present but moderately describes it. Is there any word that conveys more meaning than "boom." If so, let us have it.

DAMAGES.—There was a rumor prevalent a few days since that the father of the young man Auld, who was killed on the Canada Pacific Railroad here a few days since, was about to institute an action for damages.

PONIES WITH INDIANS.—Some Indians in township 7, range 26, it is said have four ponies in their possession that they say they found estray in the Moose Mountain country and brought down with them.

In this matter we were shown a telegram on Saturday to Captain Vivian, informing him that he had won his suit against Scoble, and that he had had instruction to pay into court the monies received for the sale of the Vivian property.

ROBBED.—A young man named Leahay, a member of the Plum Creek Club, had an envelope containing nearly two hundred dollars taken out of the pocket of his coat, which was laid in the tent while the cricket match was in progress on Saturday last.

ENUMERATION WEEK.—The total number of letters posted during enumeration week at Brandon post office was 4,909; post cards, 444; newspapers and periodicals, 673; books, circulars and parcels, 171; total number of registered letters, 175. The average number of registered letters passing through, mailed at, and delivered, over 120 per day.

VEGETABLES.—The farmers in the neighborhood who were fortunate enough in the spring to plant a vegetable garden find a good market here for everything they can raise. Some of the best potatoes, beets, cabbages, &c., we have ever seen have been marketed during the past week. The corn grown here is especially excellent.

Vivian vs. Scoble.—Action for account for proceeds of sale of certain lots in Brandon, which Scoble sold for Vivian at $80,000, of which one third had been paid down, but of this sum Vivian had got nothing. Scoble, by a counter account, shows that he had paid for Vivian sums to such an amount as to leave a balance in Scoble's favor of some $5,000. Stands till tomorrow. Mr. Hough for plaintiff, Mr. Killam for defendant.

WELL FURNISHED.—It has time and again been the remark of visitors from the East, when looking through some of the furnished private residences here, that they had no idea there was so much home comfort in this country. Many of the homes are furnished more elaborately than the majority of those in the older provinces, and the number of pianos and organs in use here give some idea of the culture and refinement of the occupants. And this is the "Infant City."

On and after Monday the 28th inst., from Edmonton and other offices in the North-west beyond Qu'Appelle mails will pass by railway as far as Troy, and thence by team to their destinations. The schedule time from Winnipeg to Edmonton is fifteen days, and from Edmonton to Winnipeg sixteen days. The daily postal car service has been extended to Virden, and daily mails have been established by railway as far as Troy (Capell station.) A semi-weekly mail has also been arranged between Troy and Fort Qu'Appelle, thus giving the people at the Fort communication with Winnipeg twice a week.

"IT'S JUST GRAND."—This expression is heard day after day, as the excellent weather we are now enjoying forces itself upon us. The summer months may be pleasant, and they certainly are much ahead of the same season in the eastern provinces; but, if the fall of the year may be judged by the present month, it is beyond description. The sportsman finds enjoyment and employment to his heart's content; the farmer need not lose a day through bad weather, and the prospector and land hunter can travel along, enjoying the country and its climate at his leisure; and, it is said, such weather will last until the middle or last of October.

COMMUNICATION.—We have received a communication from a working man complaining that laborers and teamsters are unfairly dealt with by the contractors, Langdon, Sheppard & Co. The writer enters fully into the list of grievances, showing that when promised $3.50 per day only $3.00 is received, and even when earned it is hard to obtain the money. Many other complaints are made, such as the indifference of the contractors towards the men and horses on their work, in times of sickness, etc. The letter is too lengthy for publication, and might be materially shortened, without losing any of its weight.

A. M. Peterson, Esq., reports numerous transactions in the Johnston estate. There is a gratifying feature to be noted in these sales, in nearly every instance it is agreed that a dwelling house shall be erected within a limited time. The result of this is seen in the number of buildings already in course of construction on this estate. There are now some 25 or 30 buildings being erected, and we are assured that quite a number more will be started this fall. The desirability for these lots is attested in the fact that nearly all the sales have been to residents of Brandon, who are securing homes. We shall shortly have a very important addition to the city on this estate.

FOOT BALL.—The city cricket club expects to go to the capital on Saturday to conclude a very successful season in —what they hope will be—a defeat for the Winnipeggers. The bat and wicket being then laid aside, it will be in order to adopt some other healthful amusement for the cool evenings for the remainder of the season. Foot ball seems to be the favorite; and so it should be. It has the advantage of being easily prepared for, and is such a genuine democratic game that any and every one may "tumble to the racket." We hope to see it taken hold of heartily, that it may be a worthy substitute for the excellent cricketing done by the Brandon club thus far in the season.

THE "Plum Creekers" are a jolly set, and when they visit our young city have the right hand of fellowship extended them.

BROKE HIS ARM.—A three-year-old son of Mr. Short, at the Immigrant Sheds, on Tuesday last, fell over a bannister, and broke his arm

Mr. Kirchoffer, captain of the International Cricket team, at present at Plum Creek, was in the city on Saturday last, and captained the Plum Creek team.

THE FIRST THRESHING.—The first threshing in this neighborhood this year took place on the farm of Vivian and Johnston, inside the city limits. The crop thrashed was oats, which yielded abundantly.

The British casualities in Wednesday's battle are: killed, nine officers and forty-five men; wounded twenty-two officers and 300 men. The enemy's losses are estimated at 1,506 killed and wounded.

THE Seaforth (Ont.) *Expositor* says of Manitoba and the North-west: "There "will be three or four very large trade "centres, at considerable distances "apart, at which the trade of the "country will ultimately be done." Cor-rect, brothers, and set the "Boom City," Brandon, down as one of them.

A LOCAL CASE.—By the *Free Press* of the 7th inst., we notice Vivian vs. Cronn & Osler." This was a case tried in chambers before His Lordship Chief Justice Wood, to recover titles and deeds to certain preperties. It was ordered that the master in chancery tax costs, His Lordship reserving to himself to try the case as one of fraud.

CROWN VS. VIVIAN.—This was a charge of larceny preferred by P. Waram, who alleged that Captain Vivian had taken from his store, on Pacific Avenue, eight coils of barbed were which did not belong to him. After two or three adjournments the Captain was honorably acquitted, there being no evidence upon which to convict. The case was tried before the mayor. In our interview with the Captain he gave it as his opinion that this case was the outcome of spite, and that it was arranged between the parties here and those in Winnipeg, to prevent his appearing at the latter place to attend the trial there in which he was plaintiff.

SCHOOL BOARD.

The Board met on the 13th.

The application of W. McIndoe for the position of janitor was accepted.

A communication from Mr. Wm. M. Rose, asking for the use of the school for the Baptist congregation was referred to the committee on property.

An account of W. McIndoe for cleaning the school was ordered to be paid, and others were referred to the Finance Committee, and tenders for digging a well were referred from the Finance to the Property committee.

The report of the committee on salaries recommending that the salary of the Secretary-treasurer be $200, and the Inspector $50, was adopted and the amount of bonds required from the former official was fixed at $4,000.

The visiting and property committees were enjoined to meet and report on important matters at the next meeting of the Board.

Rev. J. Boydell was appointed School Inspector for the City, and the Board adjourned to meet again at 7 o'clock this evening.

MILLFORD ITEMS.

[From our own Correspondent.]

The building "boom" still continues here. The Methodists have completed their church, and the Presbyterians, not to be outdone, have secured a lot and hope to commence building operations right away. The Church of England people have invested their spare cash in an organ and will still continue to hold services in the Oriental Hotel until the spring.

It is the opinion of people here and more particularly of Messrs. Brown and Waddell that three general stores are not sufficient to supply the wants of the settlement, they have therefore opened out with a well selected stock of goods, and are doing a "rushing" trade. Both parties being very popular and well posted in their business, success no doubt awaits them.

Mr. Frank Burnett, of our local firm of real estate agents, Messrs. Burnet & Johnson, has returned from the east. He expects to see considerable emigration from the Province of Quebec to this country in the spring.

We will shortly have to mourn the loss of our esteemed Methodist Minister, the Rev. Mr. Hall. He purposes moving to Souris City. Report says that the atmosphere of that saintly city is much more congenial to the tastes of a minister than that of our "benighted" town.

Crops are just looking splendid, and harvesting operations are about over, being fully two week's earlier than last year, thanks to self-binders and good weather.

What the farmers are going to do with their grain, unless a warehouse is built here, is a mystery to most people. Major Rogers is down now in Winnipeg trying to make arrangements with people there to go into grain buying here. There will be fully 150,000 bushels of wheat for sale at this point during the winter.

A scheme is being agitated for procuring a charter and building a railway from some point in this district; say, for instance, this town to your city. It could be built to tap both this and the Sourisburg settlement, and would be the means of bringing an immense amount of trade to Brandon. The cost of building it would be comparatively small.

SILVER WILLOW.

Our City Fathers.

Our Home Rulers met in the Council Chamber, on Monday evening.

Ald. Buchan, Lockhart, Pilling, Bower, Smart, Evans and Winters were present, and on motion Ald. Buchan took the chair.

Applications for licenses for feed and sale stables were received from Messrs. Torrance, Sage, J. D. McKay, T. E. Kelly. For one horse truck from John Parker, and for one single and three double trucks from Messrs. Hesson & Bradley.

A report from the Board of Works and also one from the Finance Committee was read and passed.

The special Committee authorized to report on the bonus system generally did so. It expressed itself strongly against bonusing any enterprise, having in view more particularly the application of Mr. Carter, of Palmerston.

Ald. Smart enquired what had been done with reference to tanks.

Ald. Evans said that the Fire, Water and Gas Committee would have a report at next meeting of Council.

Ald. Smart gave notice of amendment to by-law No. 15, relating to licenses.

Ald. Winters wished to know why the Chamberlain charged more for pool than for billiard tables.

After some discussion among the Aldermen as to the difference between a pool table and a billiard table, Alderman Winters showing an education in these branches far ahead of even the half dozen of the well posted Aldermen present, it was decided that for the license purposes a billiard table was as good as a pool table or a pool table as good as a billiard table, and

Ald. Pilling moved, seconded by Ald. Winters, That in the by-law relating to such pool tables be considered as billiard tables, and that the Clerk notify the Chamberlain accordingly.

Ald. Smart moved, seconded by Ald. Winters, That a Fire and Reel Company and a Hook and Ladder Company be organized at once.—Carried.

By-law to amend clause No. 8 of By-law No. 15, relating to livery stables was read a first, second and third time and passed.

Ald. Buchan reported that the Assessors were performing their work with every degree of satisfaction.

A Double Baby.

A MORE REMARKABLE MONSTROCITY THAN THE SIAMESE TWINS.

(*Philadelphia Press.*)

A child with two heads, four arms and four legs was born near Bordentown, N. J., on Sunday, of Mrs. Mary Smith, the wife of Henry Smith, a well-known butcher engaged in business in Bordentown. In order to save the life of the mother the operation of embryotomy was performed, and the monstrosity only lived a few hours after being brought into the world. So wonderful and perfect is its formation that Dr. Dye, one of the attending physicians, has had the double babe preserved in alcohol for examination by physicians. There is the usual amount of old woman's gossip connected with the odd freak of nature, regarding the ante natel influences generally associated with all such abnornal births, but the physicians reject these hypotheses, although they are unable to ascribe any cause for the malformation. Mrs. Smith is a healthy woman of twenty-four or twenty-five years. She is already the mother of twins, which were born two years ago, unattended by any unusual circumstances. The birth on Sunday night took place in Groveville, about three miles from Bordentown, at the house of Mrs. Smith's mother, Mrs. Van Biunt, and was attended by Dr. Young, of Bordentown, and Dr. Dye, of Crosswicks. There was nothing apparently in the physical condition of Mrs. Smith previous to her illness to indicate that she was about to become the mother of any other than a natural child. Dr. Dye was called in first, but certain indications pointed out the necessity of calling another physician in consultation. Dr. Young was summoned, and seven hours after his arrival the monstrocity was born.

An examination showed that it was even a more wonderful being than the famous Siamese twins. The heads, arms and legs were separate and distinct. A fleshy ligament extending from below the shoulder blades down the sides, covering almost one half of the abdomen, made the bodies appear almost like one. There was no malformation in the individual bodies, except where the connection was made. Each infant, to speak of them as two, was naturally proportioned and of normal size. The weight of each was seven pounds, and the sex female. It was found that the connecting band of flesh was filled with arteries and veins, and that the life of one was dependent upon that of the other. Whether there existed two sets of ribs on the side where the bodies joined it was impossible to determine without an autopsy; but from all external appearances it seemed that there were two sets of ribs that were only partially developed. The lungs were separate, but it could not be ascertained whether there were two hearts or not.

The monstrosity possessed two backbones, two stomachs and two livers and kidneys, while the pelvis seemed to be joined at its anterior portions. Taken altogether, there was such an intimate relation between all the parts and organs that the monstrocity can be properly called a double child whose life, had it lived, would have been dependant upon each of the bodies.

It was regretted by the physicians that the wonderful infant had to be destroyed, but the mother's life was at stake, and it was absolutely necessary to crush one of the skulls in order to save the mother's life. Dr. Dye contemplates keeping the specimen in its present state until it is examined by some prominent obstetricians, and then have it dissected for the benefit of science.

Spoopendyke as a Farmer.

"This," said Mr. Spoopendyke, as he gazed around on his new acquisition of six acres, "this, my dear, is what I have always wanted. A farm and a farmer's life are the highways to happiness, Mrs. Spoopendyke, don't you think so?"

"It's perfectly lovely," rejoined Mrs. Spoopendyke. "I was born on a farm, and I was always healthy, though I had to go a good ways for water."

"I'll fix that, my dear," returned Mr. Spoopendyke. "I'll bring the water. Now where are my agricultural reports? I must plant right off if we are going to have crops, and when they're ripe we'll take them to market."

"I see the report says you must give your hens chopped turnip once in a while," said Mrs. Spoopendyke, putting her thumb on the paragraph.

"Either that or cabbages," returned her husband. "I don't know whether we'll have cabbages enough," he continued, musingly.

"You might have less buckwheat," suggested Mrs. Spoopendyke. "I should think, though, that two acres would be enough for one hen, and if it isn't you can buy a load now and then from the neighbors."

"I'll think that over," replied Mr. Spoopendye. "Here's one thing I don't understand. It says we should test a few seeds before planting to make sure they will germinate, but it don't say how to do it."

"May be it means to boil them," suggested Mrs. Spoopendye, "or perhaps you—"

"Or, perhaps you think it means to crack 'em with an axe to see if they are hard! I s'pose you've got an idea you stick straws into 'em to see if they're done! Well, you don't; you put acid on 'em. I'll get some acid and drop 'em in, and if it don't they're all right. I think we ought to have some weevil for the pig."

"I don't know where you're going to plant it," said Mr. Spoopendyke, "unless it will grow with buckwheat or onions. You can't put it in with the cabbages because the pig and hen would fight."

"Do you know what weevil is?" demanded Mr. Spoopendyke, glaring at his wife. "Got a notion it's some kind of weed for the pig to smoke, havon't you? Imagine it's gilt-edged note-paper with a monogram for him to write on, don't you. Well, it isn't a swallow-tail coat or a plug hat for him to go to church in, neither! You don't plant weevil, Mrs. Spoopendyke, any more than you do soap, or clothespins, or stair-rods. You buy it in barrels and I'll offer some."

"I think we ought to have some lace curtains for the front windows," suggested Mr. Spoopendyke, anxious to change the conversation.

"Yes, and we want a folding bedstead for the cow, and we've got to have a new arm chair for the pig, and I'm afraid those cabbages wont do without a wet nurse!" squealed Mr. Spoopondyke. "I suppose I've got to hire a man to see that the meadow don't go fishing on Sundays and upset your religious notions. O! you're a farmer's wife, you are! If I had time to write an index to you and get some dod gasted binder to fit you up with a fly leaf, you'd make a whole agricultural report!"

And Mr. Spoopendyke shot into the house and to bed, while his wife, having put all the oil lamps into buckets of water so they couldn't explode during the night, fell asleep dreaming that the cabbage patch had eloped with the onions, while the sow and the pig had died of weevil and the windmill had abandoned agricultural pursuits and started off through Ohio preaching the gospel.

WINNIPEG, - - - MANITOBA.

FOUNDERING OF THE STEAMER ASIA IN GEORGIAN BAY.

News reaches here to-day that the steamer Asia, of the Great Northern Transit Co.'s line, which left Collingwood Wednesday evening of last week for French River and Sault Ste Marie, foundered on Thursday last. The Asia had on board a hundred passengers, including a large number of lumbermen [illegible]ties on the French River, with [illegible]d lumbering supplies. The steamer foundered during a heavy storm, and only two of the passengers are known to have reached shore alive. These were Mr. D. A. Tinker, of Manitowaning, and Miss Morrison, a passenger. After great exposure and suffering they were brought in an Indian canoe to Parry Sound, and are now being cared for there.

Tinker reports that all the staterooms were full, and many passengers were lying on sofas and the cabin floor. About 11 a.m., on Thursday, a storm struck the vessel. The dishes and chairs were flying in every direction. We left the cabin and found difficulty in getting on deck, the boat was rolling so heavily. I got a life preserver and put it on. The boat fell in the trough of the sea and would not obey the helm. She rolled heavily for about twenty minutes, when she was struck by a heavy sea, foundered and went down with engines working about half-past eleven. I saw three boats loaded. I was in the first boat. About eight were with me at first, and more got in till the boat was overloaded and turned over twice; the people clung to my life preserver, which got displaced and I threw it off. I then left the boat anz swam to the captain's boat, which was near by and asked John McDougall, the purser, to help me in. He said it was but little use, but gave me his hand. When I got in there was 18 in the boat, by that time there was a large number clinging to the boat I had left. I knew nothing of the third boat. Our boat rolled over and I missed McDougall. People were hanging to spars and other parts of the wreckage. Our boat was full of water and the sea was continually breaking over us.

One of the first to die on the boat was the cabin boy. He was dying and was being supported by one of the men when a wave washed him overboard. The next to go was a boat hand who jumped out. I could see him paddling around in the water for nearly a hundred yards. Our number was now reduced to seven, five of whom died before reaching the beach.

Captain Savage was the last to die in my hands.

About midnight, Thursday, John Wittle, of Sault Ste Maire, McDonald and two others, names unknown, also died.

The boat finally stranded near Point Au Barrie about daylight, Friday, with Miss Morrison and myself only surviving. I put the bodies out on the beach and pried the boat off with an oar, but could not bail it out. Miss Morrison and I went down the beach in the boat to the derrick, about two miles distant, and laid on the beach all night.

About 8 o'clock Saturday morning an Indian came along and I engaged him to bring us to Perry Sound. He would not bring the bodies.

[illegible]mer Northern Belle, of the sa[illegible] was furnished with ice, etc., and has left for the bodies. There were probably about one hundred persons on board the Asia.

Railways in the Northwest.

We gave yesterday an extract from a Northwest correspondent's letter to the Huron *Expositor*. It showed that the towns there will be large but few in number and far apart; and that there would be much railway travel. He might have added that owing to the great cost of building and maintaining wagon roads on account of the nature of the soil and climatic conditions, and on the other hand the comparative cheapness of building railroads, nothing that would interfere with freetrade in railways would be put up with by the people. Casual readers might think from the number of projected lines that railway building was in danger of being overdone. But this is not the case.

The people of Manitoba and the North-west are, then, bound to have lots of railway accommodation, and we can well imagine that they will stand very little of the railway monopoly which the present government has foisted on that country. Repudiation of the monopoly is being openly talked of; once the local legislatures charter and incorporate the line in opposition to the Syndicate, they will be built despite federal disallowance; and if the government send up troops to prevent the people building what roads they want, there will be a nice kettle of fish in the dominion kitchen.

The weak point in the dominion railway policy is here: There are the great plains of the North-west, which will be easily and quickly settled, and the railroads for which can be cheaply built; no company needed to be subsidized to do this work; any number of men and any amount of money would be forthcoming if they were only given the privilege; but the dominion had two bad pieces of road to build, the Lake Superior and the Rocky Mountain section, and *it has saddled or attempted to saddle the construction of these on the plains' people by giving the railway company a monopoly*. The people of the plains will not put up with this for long; when their numbers increase and their local legislatures become more alive to their interests, it will be seen that the action of the government in creating a monopoly has paved the way for a disputed jurisdiction, and that in the dispute the dominion will come off second best."—*Toronto World*.

APPOINTED.—Mr. Grant Wood, of Plum Creek, has been appointed a Commissioner for taking affidavits for use in the courts of the province.

We learn with pleasure that Mr. A. J. Belch, who has for many years been connected with the Dominion Lands Department in this Province, has received the appointment of land commissioner for the Portage, Westbourne & North-Western Railway, at a handsome salary. With the experience which Mr. Belch will be able to bring to bear upon the duties of his new position, we are certain the railway company have made a wise selection.

The Young Man's Country.

The correspondent of the *World* with the press excursion was struck by the youthful appearance of the mayors and other popular representatives encountered in the Northwest. The M. P.'s, M. P. P.'s, lawyers, journalists, etc., were all young men. The reason is that Manitoba and Assinaboia are the young man's country. The recent graduates of the university of Toronto, and the young limbs of our law society are going up their in droves. We do not regret their departure; they are the kind of stuff out of which to build up a new province. Toronto especially is getting to be an old man's city. The worst thing against a young man starting business here, or attempting to shove something new, is his youth. The bank manager tells him that he must give better names as security, and when asked for a sample, rhymes off the old established houses. A young man who grows up with the country is the one who succeeds easiest. And the paradox of this is that the old men in Ontario who are crowding out the young fellows, and who look so suspiciously on young men were themselves fortunate owing to their accidental growing up with this province. Let the young men from Ontario go up to the Northwest. But let them see their way through the first winter before making the grand rush.—*Toronto World.*

The Canada Pacific Railroad Programme.

An eastern exchange gives the following pointers as to the programme of the Canada Pacific Railway for the future:—The following questions were disposed of at the meeting of the Directors of the Canada Pacific Railway just closed in Montreal city: First—The approval of the location to Moose Jaw Creek. Second—The continuation of the location of the survey to Fort Calgary to be completed this season, and the line itself to be completed next season. Third—The location in conformity with the Winnipeg by-law of the Winnipeg & Pembina Mountain Branch and provision for its immediate construction. Fourth—The immediate location and construction of the Assiniboine branch from a point 20 miles east of Brandon northwesterly towards the Little Saskatchewan, Fort Ellice, Riding Mountain and Touchwood Hills. Fifth—Immediate location and construction of the Saskatchewan branch from a point near the great forks of the Qu'Appelle, extending in a north-westerly direction. Sixth—Immediate location and survey of the Souris branch, extending from Brandon south-westerly towards the Souris and Turtle Mountain district to within 24 miles of the international boundary and then westward, parallel to such boundary to the 104th parallel of longtitude. Seventh—The granting of leases for elevator and grain warehouses at nominal rents. The subject of the most effectual means of conferring the sales of agricultural lands as far as possible to actual settlers was considered, but was not finally disposed of. The construction of freight and passenger stations, offices, work shops, and stock and cattle yards within the city of Winnipeg as soon as the city by-law shall have finally passed, was decided upon.

Mr. Stanley on the Congo.

The London *Telegraph* publishes a communication received from M. von Pract, Chief de la Maison of his Majesty the King of the Belgians, of the principal portions of which the following is a translation:—"Stanley continues without relaxatian, but always with prudence, to develop his enterprise, which consists, as everyone knows, in establishing a line of stations from the embouchure of the River Congo, and in carrying them so far forward as his resources will permit. Unhappily the attendant expenses are very considerable; and thus far the hope one had in diminishing them by covering a certain part with the profits of some commercial ventures had not been realized. But those who sustain the work are not anvious to make money. They desire rather to open new horizons to European activity, and to bring about an amelioration in the situation at present so lamentable, of the native population. Stanley has completed the four stations of Vivi, Isangila, Manyenga, and Stanley Pool. Vivi is below the rapids, and Stanley Pool above them, and the road has been marked out between these two points. It is now three years since Stanley began to work in this country, and there has not been the least dispute or the least quarrel with the natives. He makes his way only by persuasion and that influence which exercies itself so strongly over the native tribes, does so through his friendship for them, and the respect with which he knows how to inspire them. The stations mentioned are the beginnings of towns, which will be African, not Belgian. These have already their dwellings, their gardens and even their flag, which has a blue field with a star of gold upon it. Each station is placed under a white headman, with a white lieutenant and one or two white assistants. The population consists of Zanzibar negroes and the natives of the localities. The Zanzibar men have been engaged for three years. The first detachment, whose period of service expires shortly, will be taken back to their country by ship."

A Dakota man has patented an arrangement that may solve the fuel problem in the North-west. His invention is a stove for burning hay and straw. A description tells us that the base of the burner is made square, and deep enough to leave space for a large ash-pan, a grate being pivoted in a circular opening in its upper surface. A sheet-iron cylinder is placed over and outside of the grate, which has on its top an inner flat cover and an ornamental outer cover. This cylinder encloses a smaller cylinder formed of parallel bars connected at their ends by rings. A cylinder in which straw is packed is adapted to open when it is pressed into the grated cylinder and leave the straw when it is drawn out. The space between the grated and sheet-iron cylinders gives the draft. An invention of this kind, if it is found practicable, should be of great service in a country where straw is such a common product and other forms of fuel scarce.

By-Law No. 39.

A By-law to raise thirty thousand dollars by Debentures for permanent improvements in the County of Brandon.

Whereas: It is expedient and desireable to raise by loan on the credit of the municipality of the County of Brandon the sum of thirty thousand dollars, payable on the twenty-first day of August, in the year of our Lord one thousand nine hundred. with interest at the rate of six per centum per annum, to be applied to, and which has been estimated to be necessary, to making permanent improvements within the County of randon, hereinafter mentioned, that is to say:

1 For the construction of Roads and Bridges, twenty-five thousand dollars.

2 For the construction of County Buildings, five thousand dollars.

And whereas, the sum of three thousand four hundred dollars will be required to be raised annually as a special rate for paying the interest and for creating a sinking fund for paying the said loan at the days and times when the same becomes payable by this By-law.

And whereas, the amount of the whole ratable property of the County of Brandon, according to the last revised assessment rolls, is two million five hundred and ninety-eight thousand three hundred and five dollars ($2,598,305); and whereas, to raise the said yearly sum of three thousand four hundred dollars the annual special rate upon the said ratable property will require to be one and one-third mills in the dollar: therefore, the Warden and Council of the County of Brandon, in council assembled enact as follows:

1. That the sum of thirty thousand dollars be raised by way of loan upon the credit of this municipality.

2. That Debentures in sums of not less than one hundred dollars each be issued by this Council, not exceeding in the whole the sum of thirty thousand dollars.

3. That the Debentures to be issued therefor be made payable on the twenty-first day of August, in the year of our Lord one thousand nine hundred, and bear interest at six per centum per annum, payable half yearly on the twenty-first days of February and August each year.

4. That the Debentures may, both as to the principal and interest, be made payable at any place in Great Britain, Ontario, Quebec, or Manitoba, and may be expressed either in sterling money or in the currency of the Dominion of Canada.

5. That the sum of thirty thousand dollars being the amount required for and necessary to repay the expense of the permanent improvements herein mentioned be laid out as follows: In the construction of Roads and Bridges, twenty-flye thousand dollars; county Buildings, five thousand dollars.

6. That the ann al special rate of one and one-third mill in the dollar upon the assessed value of all the ratable property in the County, according to the last revised assessment rolls of this municipality over and above all other rates and taxes, shall be raised, levied and collected annually from the year one thousand eight hundred and eighty-two to the year one thousand nine hundred inclusive, for the purpose of paying the said loan of thirty thousand dollars and interest as aforesaid.

7. That Friday, the 29th day of September next, be the day fixed by this By-law for taking the votes of the electors of this municipality thereon, from 10 o'clock a.m. to 4 o'clock p.m.

8 That the following shall be the polling places in the county at which the votes of the electors shall be taken on this By-law: Ward No. 1, section 32, township 7, range 17, west, John Wear, returning officer; residence of Mr Kirchhoffer, Plum Creek, R Kirchhoffer, returning officer. Ward No. 2—section 18, township 10, range 18, Dr. W. J. Graham, returning officer; section 20, township 10, range 20, J. Weatherill, returning officer. Ward No. 3—section 16, township 11, range 17, David Black, returning officer; section 26, township 11, range 19, Wm. Drew, returning officer.

9. That this By-law shall come into operation and take effect from the day of its final passing, according to the date hereof.

Done and passed in Council of this County of Brandon, this twenty-first day of August, in the year of our Lord one thousand eight hundred and eighty-two.

(Signed) { GEO. RODDICK, Warden.
{ JNO. WEATHERILL, Clerk.

I certify the above is a true and correct copy of By-law No. 39, passed Aug. 21st, A.D., 1882.
